

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

Education settings must be able to achieve the following controls as defined by the Department of Education. The Risk Assessment must be reviewed by Head Teachers point by point and where actions are implemented, they must be re-worded if necessary, to show how the controls have been applied, add/amend for your school environment. The risk assessment should be reviewed at SLT and with the Governing Body and shared with all staff. The risk rating for each identified hazard and overall risk assessment must be considered and decided/changed to Low, Medium, or High by the school on how the school proceeds with the COVID-19 control measures within the school. Sharing the risk assessment with School Unions and using the risk assessment as a training tool for all staff to ensure full knowledge and control of risk is in place. Secondary schools are expected to have a staggered return to school with remote learning for the first week in January.

The current Government guidance for detailed review to assist in your risk assessment links:

<https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/guidance-for-full-opening-schools>

<https://www.gov.uk/government/publications/schools-and-childcare-settings-return-in-january-2021/schools-and-childcare-settings-return-in-january-2021>

Description of Activity	COVID 19 Secure School Risk Assessment Version 3.0	Review Dates	
Location	Columbia Market Nursery School	Tier level	Tier 4
Completed by	Stuart McGregor and Lynn Cottle		
Date of Assessment	6 th January 2021		

Please note, the Headteacher is charged under health and safety law, the children’s act and human rights act to ensure the school is staffed to safe levels. It may be necessary to limit the number of children on site if our staffing numbers are too low due to covid. In such a case we may need to prioritise vulnerable children and critical worker families but will do so in a fair manner. Any decision will be made by the governors and head teacher. The local authority will be informed and any such decision will be made in the best interest of our school and wider community.

SECTION ONE: PREVENTION

What are the hazards?	Who & how might someone be harmed?	What are you currently doing to control risks?	Risk Rating L / M / H	What else do you need to do (if applicable)?	Action by who / when?	Date Completed
(1. Minimise contact) People unwell/ Coronavirus	Employees, agency, Pupils, visitors	1. Minimise contact with individuals who are unwell by ensuring that those who have coronavirus (COVID-19) symptoms, or who have someone in their household who does, do not attend school 2 Ensuring that pupils, staff and other adults do not	M	Awareness of staff and clarity of message. Keep staff updated/changes. Share risk assessment. Clear communication with families. Consistent approach and message when staff and families	HT All staff responsible for ensuring consistent message is communicated.	Ongoing

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

<p>(COVID-19) (CV19)</p> <p>Someone entering the school/workplace/offices with CV19</p>	<p>Causing severe infection/disease</p>	<p>come into the school if they have coronavirus (COVID-19) symptoms or have tested positive in at least the last 10 days and ensuring anyone developing those symptoms during the school day is sent home, are essential actions to reduce the risk in schools and further drive down transmission of coronavirus (COVID-19).</p> <p>All schools must follow this process and ensure all staff are aware of it.</p> <p>3 If anyone in the school becomes unwell with a new and persistent cough or a high temperature, or has a loss of or change in, their normal sense of taste or smell (anosmia), they must be sent home and advised to follow guidance for households with possible or confirmed coronavirus (COVID-19) infection, which sets out that they should self-isolate for at least 10 days and should arrange to have a test to see if they have coronavirus (COVID-19).</p> <p>4 Other members of their household (including any siblings) should self-isolate for 10 days from the day after the individual tested positive.</p> <p>5 If a child is awaiting collection, they should be moved, if possible, to a room where they can be isolated behind a closed door, depending on the age and needs of the child, with appropriate adult supervision if required. Ideally, a window should be opened for ventilation. If it is not possible to isolate them, move them to an area which is at least 2 metres away from other people.</p> <p>6 If they need to go to the bathroom while waiting to be collected, they should use a separate bathroom if</p>	<p>M</p>	<p>phone in or when situations arise. Community Room to be used as holding bay and cleaned after: staff member who waits with child must wear PPE.</p>		
---	---	--	----------	--	--	--

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

		<p>possible. The bathroom must be cleaned and disinfected using standard cleaning products before being used by anyone else.</p> <p>7 PPE must be worn by staff caring for the child while they await collection if a distance of 2 metres cannot be maintained (such as for a very young child or a child with complex needs). More information on PPE use can be found in the safe working in education, childcare and children’s social care settings, including the use of personal protective equipment (PPE) guidance.</p> <p>8 If a child in a boarding school shows symptoms, they should initially self-isolate in their boarding house (or the accommodation they stay in while at school). Most children will benefit from self-isolating in their boarding house so that their usual support can continue. Others will benefit more from self-isolating in their home.</p> <p>9 As is usual practice, in an emergency, call 999 if someone is seriously ill or injured or their life is at risk. Anyone with coronavirus (COVID-19) symptoms should not otherwise visit the GP, pharmacy, urgent care centre or a hospital.</p> <p>10 Any member of staff who has provided close contact care to someone with symptoms, even while wearing PPE, and all other members of staff or pupils who have been in close contact with that person with symptoms, even if wearing a face covering, do not need to go home to self-isolate unless:</p> <ul style="list-style-type: none"> • the symptomatic person subsequently tests positive 				
--	--	--	--	--	--	--

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

		<ul style="list-style-type: none"> • they develop symptoms themselves (in which case, they should arrange to have a test) • the symptomatic person subsequently tests positive • they are requested to do so by NHS Test and Trace or the PHE advice service (or PHE local health protection team if escalated) <p>11 Everyone must wash their hands thoroughly for 20 seconds with soap and running water or use hand sanitiser after any contact with someone who is unwell. The area around the person with symptoms must be cleaned after they have left to reduce the risk of passing the infection on to other people. See the COVID-19: cleaning of non-healthcare settings guidance.</p> <p>12 Public Health England has good evidence that routinely taking the temperature of pupils is not recommended as this is an unreliable method for identifying coronavirus (COVID-19)</p>				
<p>(2. Face Coverings)</p> <p>Coronavirus (COVID-19) (CV19)</p>	<p>Employees, agency, pupils, visitors</p> <p>Causing severe infection/disease</p>	<p>1 The government is not recommending universal use of face coverings in all schools.</p> <p>2 Schools that teach children in years 7 and above and which are in local restriction tier 1 will have the discretion to require face coverings for pupils, staff and visitors in indoor areas outside the classroom where social distancing cannot easily be maintained, such as corridors and communal areas and it has been deemed appropriate in those circumstances.</p> <p>3 Primary school children will not need to wear a face</p>		<p>Communications clear and consistent: January 2021 we are asking staff to wear them until further notice.</p> <p>Parent/carer MUST wear face covering when inside school. A small supply are available for parental emergency use. A full supply are available to all staff across the school who</p>		

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

		<p>covering.</p> <p>4 In particular, schools that teach years 7 and above may decide to recommend the wearing of face coverings for pupils, staff or visitors in communal areas outside the classroom where the layout of the schools makes it difficult to maintain social distancing when staff and pupils are moving around the premises, for example, corridors.</p> <p>5 In primary schools where social distancing is not possible in indoor areas outside of classrooms between members of staff or visitors, for example in staffrooms, headteachers will have the discretion to decide whether to ask staff or visitors to wear, or agree to them wearing face coverings in these circumstances.</p> <p>6 Based on current evidence and the measures that schools are already putting in place, such as the system of controls and consistent bubbles, face coverings will not be necessary in the classroom even where social distancing is not possible. Face coverings could have a negative impact on teaching and their use in the classroom should be avoided.</p> <p>Local restriction tiers: 2, 3 or 4</p> <p>When an area moves to local restriction tiers 2, 3 or 4, in settings where pupils in year 7 and above are educated, face coverings should be worn by adults and pupils when moving around the premises, outside of classrooms, such as in corridors and communal areas where social distancing cannot easily be maintained. This does not apply to younger children in primary schools and in early years settings.</p>		<p>may need them when engaged in intimate care or when supporting a child with COVID symptoms in the Community Room awaiting collection. All visitors/contractors must wear them onsite (only emergency visits permitted during school hours). Clear communication that masks must be disposed of in the bin (not recycled).</p>		
--	--	---	--	--	--	--

		<p>7 In the event of an area moving into local restriction tiers 2, 3 or 4, schools will need to communicate quickly and clearly to staff, parents and pupils that the new arrangements require the use of face coverings in certain circumstances.</p> <p>Exemptions</p> <p>Some individuals are exempt from wearing face coverings. This applies to those who:</p> <ul style="list-style-type: none"> • cannot put on, wear or remove a face covering because of a physical or mental illness or impairment or disability • speak to or provide assistance to someone who relies on lip reading, clear sound or facial expression to communicate <p>The same exemptions will apply in education settings, and we would expect teachers and other staff to be sensitive to those needs.</p> <p>Access to face coverings</p> <p>It is reasonable to assume that staff and young people will now have access to face coverings due to their increasing use in wider society, and Public Health England has made available resources on how to make a simple face covering.</p> <p>However, where anybody is struggling to access a face covering, or where they are unable to use their face covering due to having forgotten it, or it having become soiled or unsafe, education settings should take steps to have a small contingency supply available to meet such needs.</p>				
--	--	--	--	--	--	--

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

		<p>No one should be excluded from education on the grounds that they are not wearing a face covering.</p> <p>Safe wearing and removal of face coverings</p> <p>Schools should have a process for removing face coverings when those who use face coverings arrive at school, and when face coverings are worn at school in certain circumstances. This process should be communicated clearly to pupils and staff.</p> <p>Safe wearing of face coverings requires cleaning of hands before and after touching – including to remove or put them on – and the safe storage of them in individual, sealable plastic bags between use. Where a face covering becomes damp, it should not be worn and the face covering should be replaced carefully.</p> <p>Pupils must be instructed not to touch the front of their face covering during use or when removing it and they must dispose of temporary face coverings in a ‘black bag’ waste bin (not recycling bin) or place reusable face coverings in a plastic bag they can take home with them, and then wash their hands again before heading to their classroom.</p> <p>Further guidance on face coverings</p> <ul style="list-style-type: none"> • Safe working in education, childcare and children’s social care provides • Face coverings in education settings 				
(3. Hand hygiene)	Employees, agency, pupils,	1 Coronavirus (COVID-19) is an easy virus to kill when it is on skin. This can be done with soap and running	M	Hand sanitiser stations – to support the handwashing regime already in place –	HT	In place

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

<p>Coronavirus (COVID-19) (CV19)</p> <p>Poor Hand hygiene</p>	<p>visitors</p> <p>Causing severe infection/disease</p>	<p>water or hand sanitiser. Schools must ensure that pupils clean their hands regularly, including when they arrive at school, when they return from breaks, when they change rooms and before and after eating.</p> <p>2 Regular and thorough hand cleaning is going to be needed for the foreseeable future. Points to consider and implement:</p> <ul style="list-style-type: none"> • school implemented a review and increased hand washing stations as necessary so that all pupils and staff can clean their hands regularly • supervision of hand sanitiser use given risks around ingestion. Small children and pupils with complex needs should continue to be helped to clean their hands properly. Skin friendly skin cleaning wipes can be used as an alternative • have built these routines into school culture, supported by behaviour expectations, and helping ensure younger children, and those with complex needs, understand the need to follow them 		<p>reinforce the before and after meals and after breaks Morning entry supervised in corridor to ensure social distancing Lunchtime use staggered use naturally with toileting and adult presence to support this. Increase in signage corridors, specific stagger-shared locations and classrooms Regular cleaning agreed with team and Glenn for cleaning of toilet areas and checking of soap and hand drying tissue supplies during the day. Premises team to set in place: clear cleaning timetable and ordering of supplies Daily reminders to as part of classroom routine / weekly briefing H+s update to staff / outside visitors, contractors... COSHH – premises team....sanitisers</p>	<p>All staff</p> <p>Premises Manager</p>	<p>On going</p>
<p>(4. Respiratory hygiene)</p> <p>Coronavirus (COVID-19) (CV19)</p> <p>Someone entering the school/workplace/offices with</p>	<p>Employees, agency, Pupils, visitors</p> <p>Causing severe infection/disease</p>	<p>1 The 'catch it, bin it, kill it' approach continues to be very important, increased amount of tissues and bins available in the school to support pupils and staff to follow this routine.</p> <p>2 As with hand cleaning, younger children and those with complex needs are helped to get this right and all pupils understand that this is now part of how the school operates. The e-Bug coronavirus (COVID-19) website</p>		<p>In place for all staff –but regular reminders Increased signage Modelling by staff lidded bins in all classrooms...Tissue supplies in classrooms...waste disposal. Double bagging of waste Modelling/reminding and for staff</p>	<p>HT</p>	<p>In place /ongoing monitoring</p>

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

CV19		<p>contains free resources for schools, including materials to encourage good hand and respiratory hygiene.</p> <p>3 Some pupils with complex needs will struggle to maintain as good respiratory hygiene will be considered with individual risk assessments in order to support these pupils and the staff working with them and is not a reason to deny these pupils face-to-face education.</p> <p>4 Face coverings are required at all times on public transport, except for children under the age of 11.</p> <p>Further information can be found in the face coverings guidance.</p>				
<p>(5. Cleaning regime)</p> <p>Coronavirus (COVID-19) (CV19)</p> <p>Someone entering the school/workplace/offices with CV19 and there are poor cleaning standards</p>	<p>Employees, agency, Pupils, visitors</p> <p>Causing severe infection/disease</p>	<p>1 An increased cleaning schedule that ensures cleaning is more frequent of rooms and shared areas that are used by different groups</p> <p>2 Frequently touched surfaces being cleaned more often than normal</p> <p>3 Toilets will need to be cleaned regularly and pupils must be encouraged to clean their hands thoroughly after using the toilet - different groups being allocated their own toilet blocks could be considered but is not a requirement if the site does not allow for it</p> <p>4 Public Health England has published revised guidance for cleaning non-healthcare settings to advise on general cleaning required in addition to the existing advice on cleaning those settings when there is a suspected case.</p> <p>5 Local audits and inspections of cleaning staff work activities and areas of cleaning to be completed to ensure governance and control measures are being</p>		<p>All staff actively involved in cleaning throughout the day: Identification of shared areas and guidance outlined to staff...Rose, Bluebell, Sunflower, Sinks and toilets, garden equipment / Toilets + sinks +door handles...stair banisters...door handles... Zipp tap in staffroom / Celia and Jai with expected duties...monitored</p> <p>Toilet cleaning – x 2 am session / 1x lunchtime/ x1 pm session plus additional if needed All teams fully briefed: equipment used then cleaned Clear instruction to parents and pupils and staff about what can and can't be brought into school from home...scooters, bikes,</p>	Premises team	In place and monitoring ongoing

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

		<p>implemented to high standards</p> <p>6 Cleaning contractor CV19 risk assessments to be requested upon any significant changes to ensure a monitoring role of contractor cv19 compliance is implemented</p>		<p>spare clothes and a labelled bottle of water</p>		
<p>(6. Minimise contact social distancing)</p> <p>Coronavirus (COVID-19) (CV19)</p> <p>Someone entering the school/workplace/offices with CV19 coming close to others, poor social distancing, mixing of groups, lack of infection control separation</p>	<p>Employees, agency, Pupils, visitors</p> <p>Causing severe infection/disease</p>	<p>1 Minimising contacts and mixing between people reduces transmission of coronavirus (COVID-19). This is important in all contexts and schools must consider how to implement this.</p> <p>2 We have assessed the school operational set up to reduce contacts wherever possible whilst delivering a broad and balanced curriculum.</p> <p>3 Bubbles have been implemented to continue in reducing the number of contacts between children and staff, and through maintaining the distance between individuals</p> <p>4 We have followed the government guidance on how to group children throughout 2020 and will be continued into 2021</p> <p>5 Classroom set up to encourage avoidance of face to face, and aiming to maintain social distancing of 2m wherever possible, or reducing time spent within 1 metre of anyone, those with special needs will need to have the continued close support and PPE will be reviewed and implemented for these close contact pupils. That should include seating pupil's side by side and facing forwards, rather than face to face or side on, and might include moving unnecessary furniture out of classrooms to make more space.</p>		<p>1. Furniture, resources and experiences stripped back to ensure space to move and use of garden. On the carpet children to space out where possible.</p> <p>2.School will operate as a bubble and review as we progress through the term.</p> <p>3. One nursery bubble in operation unless</p> <p>4. One bubble but ensuring all our measures are in place strictly to minimise risk.</p> <p>5. No collective whole school events indoors. Avoid groups congregating in corridors. Wedge and staffroom available as well as garden for break time.</p> <p>6.. Clear and repeated communication with families regarding procedure for entering school and handwashing. One way system in place for drop off and pick up.</p>	<p>Staff Team</p>	<p>In place and monitoring ongoing</p>

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

	<p>6 When staff or children cannot maintain distancing, particularly with younger children in primary schools, the risk can also be reduced by keeping pupils in the smaller, class-sized groups.</p> <p>7 Groups are being kept apart, avoiding large gatherings such as assemblies or collective worship with more than one group.</p> <p>8 When timetabling, groups are kept apart and movement around the school site kept to a minimum. While passing briefly in the corridor or playground is low risk, schools should avoid creating busy corridors, entrances and exits.</p> <p>9 Staggered break times and lunch times (and time for cleaning surfaces in the dining hall between groups).</p> <p>10 A plan of how shared staff spaces are set up and used to help staff to distance from each other. Use of staff rooms should be minimised, although staff must still have a break of a reasonable length during the day.</p> <p>Measures for arriving at and leaving school</p> <p>11 Staggered starts or adjusting start and finish times to keep groups apart as they arrive and leave school. Staggered start and finish times should not reduce the amount of overall teaching time. A staggered start may, for example, include condensing/staggering free periods or break time but retaining the same amount of teaching time, or keeping the length of the day the same but starting and finishing later to avoid rush hour. Schools should consider how to communicate this to parents and remind them about the process that has been agreed for drop off and collection, including that</p>		<p>7. SEND individual RAs in place for children who need them – to be added to as children return to school if necessary</p> <p>8.Guidance given on arrival and regular staff used where possible</p> <p>9 As per our existing control measure.</p> <p>12. Guidance on arrival and where possible only on site outside teaching time.</p> <p>13. TBC – currently do not have children who attend multiple settings apart from childminders.</p> <p>14. Essential equipment to be allocated with cleaning kits – these and shared as per our existing control measures</p> <p>15. Outdoor equipment is regularly cleaned during sessions. Bikes and helmets cleaned in between use.</p> <p>16. Reading books go home on a Friday and returned on a Monday</p> <p>They are cleaned and left in HT's office until Friday and returned to class. Special Books wiped as they are</p>		
--	---	--	--	--	--

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

		<p>gathering at the school gates and otherwise coming onto the site without an appointment is not allowed.</p> <p>Other considerations</p> <p>12 Some pupils with SEND (whether with education, health and care plans or on SEN support) will need specific help and preparation for the changes to routine that this will involve, so teachers and special educational needs coordinators should plan to meet these needs, for example using social stories.</p> <p>13 Schools, local authorities, health professionals, regional schools commissioners and other services should work together to ensure that children with medical conditions are fully supported, including through the use of individual healthcare plans, so that they may receive an education in line with their peers. In some cases, the pupil's medical needs will mean this is not possible, and educational support will require flexibility. Our guidance on supporting pupils at school with medical conditions remains in place.</p> <p>14 Supply teachers, peripatetic teachers and other temporary staff can move between schools. They should ensure they minimise contact and maintain as much distance as possible from other staff. Specialists, therapists, clinicians and other support staff for pupils with SEND should provide interventions as usual.</p> <p>15 Schools should consider how to manage other visitors to the site, such as contractors, and ensure that the risks associated with managing contractors, visitors, catering staff and deliveries, as well as cleaning staff on site who may be working throughout the school and</p>		<p>returned.</p>		
--	--	---	--	------------------	--	--

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

		<p>across different groups, are addressed. This will require close cooperation between both schools and the other relevant employers.</p> <p>16 Schools should have discussions with key contractors about the school's control measures and ways of working.</p> <p>17 Schools should ensure site guidance on physical distancing and hygiene is explained to visitors on or before arrival. Where visits can happen outside of school hours, they should. A record should be kept of all visitors with sufficient detail to support rapid contact tracing if required by NHS Test and Trace.</p> <p>18 As normal, schools should engage with their local immunisation providers to provide immunisation programmes on site, ensuring these will be delivered in keeping with the school's control measures. These programmes are essential for children's health and wellbeing and can also provide benefits for staff.</p> <p>19 Where a child routinely attends more than one setting on a part time basis, for example, because they are dual registered at a mainstream school and an alternative provision setting or special school, schools should work through the system of controls collaboratively, enabling them to address any risks identified and allowing them to jointly deliver a broad and balanced curriculum for the child.</p> <p>20 Equipment and resources are integral to education in schools. During the summer term, their use was minimised, many were moved out of classrooms, and there was significant extra cleaning. Given the</p>				
--	--	--	--	--	--	--

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

		<p>increasing knowledge we have of the virus, that position has now changed. For individual and very frequently used equipment, such as pencils and pens, it is recommended that staff and pupils have their own items that are not shared. Classroom based resources, such as books and games, can be used and shared within the bubble; these should be cleaned regularly, along with all frequently touched surfaces. Resources that are shared between classes or bubbles, such as sports, art and science equipment should be cleaned frequently and meticulously and always between bubbles, or rotated to allow them to be left unused and out of reach for a period of 48 hours (72 hours for plastics) between use by different bubbles.</p> <p>21 Outdoor playground equipment should be more frequently cleaned. This would also apply to resources used inside and outside by wraparound care providers. It is still recommended that pupils limit the amount of equipment they bring into school each day, to essentials such as lunch boxes, hats, coats, books, stationery and mobile phones. Bags are allowed. Pupils and teachers can take books and other shared resources home, although unnecessary sharing should be avoided, especially where this does not contribute to pupil education and development. Similar rules on hand cleaning, cleaning of the resources and rotation should apply to these resources.</p>				
(7. Personal Protective Equipment)	Employees, agency, Pupils, visitors	1 The majority of staff in education settings will not require PPE beyond what they would normally need for their work. PPE is only needed in a very small number	M	As per our existing control measures – ensure all staff aware. January 2021 face coverings available on site	All staff	In place

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

<p>Coronavirus (COVID-19) (CV19)</p> <p>Someone entering the school/workplace/offices with CV19</p>	<p>Causing severe infection/disease</p>	<p>of cases, including:</p> <ul style="list-style-type: none"> • where an individual child or young person becomes ill with coronavirus (COVID-19) symptoms while at schools, and only then if a distance of 2 metres cannot be maintained • where a child or young person already has routine intimate care needs that involve the use of PPE, in which case the same PPE should continue to be used <p>2 Read the guidance on safe working in education, childcare and children's social care for more information about preventing and controlling infection, including when, how PPE should be used, what type of PPE to use, and how to source it.</p>				
<p>(8 Keeping occupied spaces well ventilated)</p> <p>COVID-19) (CV19)</p> <p>Someone entering the school/workplace/offices with CV19</p>	<p>Employees, agency, Pupils, visitors</p> <p>Causing severe infection/disease</p>	<p>Once the school is in operation, it is important to ensure it is well ventilated and a comfortable teaching environment is maintained.</p> <p>This can be achieved by a variety of measures including:</p> <ul style="list-style-type: none"> • mechanical ventilation systems – these are adjusted to increase the ventilation rate wherever possible, and checked to confirm that normal operation meets current guidance (if possible, systems should be adjusted to full fresh air or, if not, then systems should be operated as normal as long as they are within a single room and supplemented by an outdoor air supply) • natural ventilation – opening windows (in 		<p>No ventilation system. Natural ventilation FULLY employed daily. Skylights, windows in all spaces opened. Doors opened regularly to purge areas.</p>	<p>All staff</p>	<p>In place</p>

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

		<p>cooler weather windows should be opened just enough to provide constant background ventilation, and opened more fully during breaks to purge the air in the space). Opening internal doors can also assist with creating a throughput of air</p> <ul style="list-style-type: none"> • natural ventilation – if necessary external opening doors may also be used (as long as they are not fire doors and where safe to do so) <p>Further advice on this can be found in Health and Safety Executive guidance on air conditioning and ventilation during the coronavirus outbreak and CIBSE coronavirus (COVID-19) advice.</p> <p>To balance the need for increased ventilation while maintaining a comfortable temperature, the following measures should also be used as appropriate:</p> <ul style="list-style-type: none"> • opening high level windows in preference to low level to reduce draughts • increasing the ventilation while spaces are unoccupied (for examples, between classes, during break and lunch, when a room is unused) • providing flexibility to allow additional, suitable indoor clothing. For more information see School uniform • rearranging furniture where possible to avoid direct drafts <p>Heating should be used as necessary to ensure comfort</p>

		levels are maintained particularly in occupied spaces.				
RESPONSE TO ANY INFECTION						
<p>(9. Test and trace)</p> <p>Coronavirus (COVID-19) (CV19)</p> <p>Someone entering the school/workplace/offices with CV19</p>	<p>Employees, agency, Pupils, visitors</p> <p>Causing severe infection/disease</p>	<p>1 Schools must ensure they understand the NHS Test and Trace process. Schools must ensure that staff members and parents/carers understand that they will need to be ready and willing to:</p> <ul style="list-style-type: none"> • book a test if they or their child are displaying symptoms. The main symptoms are a high temperature, a new continuous cough and/or a loss or change to your sense of smell or taste. Staff and pupils must not come into the school if they have symptoms and must be sent home to self-isolate if they develop them in school. All children can be tested if they have symptoms, including children under 5, but children aged 11 and under will need to be helped by their parents or carers if using a home testing kit • provide details of anyone they or their child have been in close contact with if they were to test positive for coronavirus (COVID-19) or if asked by NHS Test and Trace • self-isolate if they have been in close contact with someone who tests positive for coronavirus (COVID-19), or if anyone in their household develops symptoms of coronavirus 	M	<p>Communication is clear and school has introduced a consistent approach. Full COVID attendance tracker system in place.</p>	<p>HT/admin team leading SAO leading</p>	<p>In place and monitoring ongoing</p>

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

		<p>(COVID-19)</p> <p>2 Anyone who displays symptoms of coronavirus (COVID-19) can and should get a test. Tests can be booked online through the NHS testing and tracing for coronavirus website, or ordered by telephone via NHS 119 for those without access to the internet. Essential workers, which includes anyone involved in education or childcare, have priority access to testing.</p> <p>3 The government will ensure that it is as easy as possible to get a test through a wide range of routes that are locally accessible, fast and convenient. We will release more details on new testing avenues as and when they become available and will work with schools so they understand the quickest and easiest way to get a test.</p> <p>4 All schools have been sent an initial supply of 10 home test kits and information about how to order to replenish this supply when they are running out. Schools should call the Test and Trace helpdesk on 119 if these have not arrived.</p> <p>Having a test at a testing site will deliver the fastest results. The test kits sent to schools are provided to be used in the exceptional circumstance that an individual becomes symptomatic and schools believe they may have barriers to accessing testing elsewhere.</p> <p>5 It is for schools to determine how to prioritise the distribution of their test kits in order to minimise the impact of the virus on the education of their pupils.</p> <p>These kits can be given directly to staff or parents and carers collecting a child who has developed symptoms</p>

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

		<p>at school. In particular, these tests kits will also help ensure that symptomatic staff can also get a test and if they test negative, can return to work as soon as they no longer have symptoms of coronavirus (COVID-19). Further information is provided in our guidance Coronavirus (COVID-19): test kits for schools and FE providers.</p> <p>6 Schools should ask parents and staff to inform them immediately of the results of a test and follow this guidance.</p> <ol style="list-style-type: none"> 1. If someone with symptoms tests negative for coronavirus (COVID-19), then they should stay at home until they are recovered as usual from their illness but can safely return thereafter. The only exception to return following a negative test result is where an individual is separately identified as a close contact of a confirmed case, when they will need to self-isolate for 10 days from the date of that contact. 2. If someone with symptoms tests positive, they should follow the guidance for households with possible or confirmed coronavirus (COVID-19) infection and must continue to self-isolate for at least 10 days from the onset of their symptoms and then return to school only if they do not have symptoms other than cough or loss of sense of smell/taste. This is because a cough or anosmia can last for several weeks once the infection has gone. The 10-day

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

		<p>school, schools can take the decision to refuse the child if in their reasonable judgement it is necessary to protect their pupils and staff from possible infection with coronavirus (COVID-19). Any such decision would need to be carefully considered in light of all the circumstances and the current public health advice.</p> <p>10 The PHE local health protection team will also contact schools directly if they become aware that someone who has tested positive for coronavirus (COVID-19) attended the school - as identified by NHS Test and Trace.</p> <p>Further guidance is available on testing and tracing for coronavirus (COVID-19).</p>				
<p>(11. Outbreak)</p> <p>Coronavirus (COVID-19) (CV19)</p> <p>Someone entering the school/workplace/offices with CV19</p>	<p>Employees, agency, Pupils, visitors</p> <p>Causing severe infection/disease</p>	<p>(Contain any outbreak by following local health protection team advice)</p> <p>1 If schools have two or more confirmed cases within 10 days, or an overall rise in sickness absence where coronavirus (COVID-19) is suspected, they may have an outbreak and must continue to work with their local health protection team who will be able to advise if additional action is required.</p> <p>2 In some cases, health protection teams may recommend that a larger number of other pupils self-isolate at home as a precautionary measure – perhaps the whole site or year group. If schools are implementing controls from this list, addressing the risks they have identified and therefore reducing transmission risks, whole school closure based on cases within the</p>	M	HT/DHT/Admin to liaise with PHE/LBTH	In place	Ongoing

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

		<p>school will not generally be necessary, and should not be considered except on the advice of health protection teams or health and safety experts</p> <p>3 In consultation with the local Director of Public Health, where an outbreak in a school is confirmed, a mobile testing unit may be dispatched to test others who may have been in contact with the person who has tested positive. Testing will first focus on the person’s class, followed by their year group, then the whole school if necessary, in line with routine public health outbreak control practice.</p>				
<p>(12 Alternative provision)</p> <p>Coronavirus (COVID-19) (CV19)</p> <p>Someone entering the school/workplace/offices with CV19</p>	<p>Employees, agency, Pupils, visitors</p> <p>Causing severe infection/disease</p>	<p>1 Work through the system of controls outlined above, adopting measures that help them meet each control to the fullest extent possible, in a way that addresses the risk identified in their assessment, works for their setting, and allows them to deliver a broad and balanced curriculum for pupils.</p> <p>2 When working through the system of controls, APs should take steps to minimise social contact and mixing as far as is practicable. All APs, especially larger AP schools, should consider whether pupils can be placed into smaller groups and still receive a broad and balanced curriculum. Due to the smaller size of many AP settings, and because APs are not typically organised by year groups, APs may wish to adopt whole school bubbles as part of their system of controls and in order to best meet the needs of their students.</p>				
<p>SECTION 2: SCHOOL OPERATIONS</p>						

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

<p>(13. Transport)</p> <p>Coronavirus (COVID-19) (CV19)</p> <p>Someone entering the school/workplace/offices with CV19</p>	<p>Employees, agency, Pupils, visitors</p> <p>Causing severe infection/disease</p>	<p>1 Social distancing has significantly reduced available transport capacity. Further guidance is set out in the transport to school and other places of education: 2020 to 2021 academic year.</p> <p>2 Dedicated school transport, including statutory provision</p> <p>Pupils on dedicated school services do not mix with the general public on those journeys and pupil groups will tend to be consistent under return to school measures. Therefore wider transmission risks are likely to be lower.</p> <p>3 Local authorities are not required to uniformly apply the social distancing guidelines for public transport, on dedicated school or college transport. However, distancing should still be put in place within vehicles wherever possible. This will help to both minimise disease transmission risks and maintain consistent reinforcement of public health messaging to children and staff, particularly at the point where they are leaving school and heading back into the community each day.</p> <p>4 The approach to dedicated transport should align wherever possible with the principles underpinning the system of controls set out in this document and with the approach being adopted for your school. It is important, wherever it is possible, that:</p> <ul style="list-style-type: none"> • social distancing should be maximised within vehicles • children either sit with their 'bubble' on school transport, or with the same constant group of children each day 	<p>L</p>	<p>All staff and pupils wash their hands thoroughly upon arrival at school. Ongoing encouragement to walk, scoot or cycle to school.</p> <p>Monitoring of families who have travelled from abroad – isolation period monitored and communicated.</p>	<p>All SAO</p>	<p>In place</p>
---	---	---	----------	--	----------------	-----------------

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

		<ul style="list-style-type: none"> • children should clean their hands before boarding transport and again on disembarking • additional cleaning of vehicles is put in place • organised queuing and boarding is put in place • through ventilation, fresh air (from outside the vehicle) is maximised, particularly through opening windows and ceiling vents <p>5 Children must not board home to school transport if they, or a member of their household, has symptoms of coronavirus (COVID-19).</p> <p>In accordance with advice from PHE, children and young people aged 11 and over must wear a face covering when travelling on dedicated transport to secondary school. This does not apply to people who are exempt from wearing a face covering on public transport. More information on this can be found at the safer travel guidance for passengers.</p> <p>6 Schools should support local authorities in promoting the use of face coverings on school transport and help them to resolve any issues of non-compliance where appropriate.</p> <p>A face covering is a covering of any type which covers your nose and mouth. It is not the same as the surgical masks or respirators used by healthcare and other workers as part of personal protective equipment (PPE).</p> <p>Further information on face coverings is set out in the transport to school and other places of education: 2020 to 2021 academic year guidance.</p> <p>Given the pressures on public transport services, it may</p>				
--	--	--	--	--	--	--

	<p>also be necessary to work with local authorities so that they can identify where it might be necessary to provide additional dedicated school transport services, including in places where these services do not currently operate. The government has announced additional funding for local transport authorities for this purpose, available at free school travel: funding allocations.</p> <p>Wider public transport</p> <p>In many areas, pupils normally make extensive use of the wider public transport system, particularly public buses. Public transport capacity continues to be constrained. Its use by pupils, particularly in peak times, should be kept to an absolute minimum.</p> <p>Schools have a critical role to play in supporting collaboration between all parties - providers, local authorities, parents and pupils. Further information on managing capacity and demand on public transport is set out in the transport to school and other places of education: 2020 to 2021 academic year guidance.</p> <p>Schools should work with partners to consider staggered start times to enable more journeys to take place outside of peak hours. We recognise that this option will be more feasible in some circumstances than others.</p> <p>Schools should encourage parents, staff and pupils to walk or cycle to school if at all possible. Schools may want to consider using 'walking buses' (a supervised group of children being walked to, or from, school) or working with their local authority to promote safe cycling routes.</p>				
--	--	--	--	--	--

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

		<p>Pupils travelling from abroad</p> <p>Where they have travelled from, or have stopped at, a country or territory that is not on the travel corridors list, pupils will be required to self-isolate for 10 days from the day they leave a non-exempt country or territory to travel to the UK. Where suitable, pupils can self-isolate at their boarding school.</p>				
<p>(14. School Workforce)</p> <p>Coronavirus (COVID-19) (CV19)</p> <p>Someone entering the school/workplace/offices with CV19</p>	<p>Employees, agency, Pupils, visitors</p> <p>Causing severe infection/disease</p>	<p>1 Where schools implement the system of controls outlined in this document, in line with their own workplace risk assessment, PHE and DHSC confirm that these measures create an inherently safer environment for children and staff where the risk of transmission of infection is substantially reduced.</p> <p>2 Most school-based roles are not ideally suited to home working and schools may expect most staff to return to work in settings. Some roles, such as some administrative roles, may be conducive to home working, and school leaders should consider what is feasible and appropriate.</p> <p>3 All staff should follow the measures set out in the system of controls section of this guidance to minimise the risks of transmission.</p> <p>4 This includes continuing to observe good hand and respiratory hygiene and maintaining social distancing in line with the provisions as set out in section 5 of the 'prevention' section.</p> <p>5 School leaders should explain to staff the measures the school has put in place to reduce risks. We anticipate adherence to the measures in this guidance</p>	M	<p>All staff are aware of the expectation and guidance – clear channels of communication. Clear expectations around hygiene and regular reminders and updates by way of briefings. During the summer term 2020 individual risk assessments were made based on factors linked to health, age, ethnicity – model from NHS used. Any supply teachers and teaching support visitors will follow our strict guidance and adhere to risk minimisation measures.</p>	All staff	In place, continuing to monitor

		<p>will provide the necessary reassurance for staff to attend school.</p> <p>6 If staff are concerned, including those who may be clinically vulnerable, clinically extremely vulnerable or who believe they may be at possible increased risk from coronavirus, we recommend school leaders discuss any concerns individuals may have around their particular circumstances and reassure staff about the protective measures in place and complete individual risk assessments</p> <p>Staff who are clinically extremely vulnerable</p> <p>7 Advice for those identified through a letter from the NHS or a specialist doctor as in the group deemed clinically extremely vulnerable (CEV or shielding list) was published on 13 October. The guidance provides advice on what additional measures individuals in this group can take tailored to each local restriction tier.</p> <p>In local restriction tier 4 areas, individuals who are clinically extremely vulnerable are advised to work from home and where this is not possible, they should not go into work. Individuals in this group will have been identified through a letter from the NHS or from their GP and may have been advised to shield in the past, most recently in November 2020.</p> <p>Staff should talk to their employers about how they will be supported, including to work from home where possible. Schools should continue to pay clinically extremely vulnerable staff on their usual terms.</p> <p>8 All other staff in local restriction tier 4 can continue to attend work, including those living in a household with</p>				
--	--	---	--	--	--	--

		<p>someone who is clinically extremely vulnerable.</p> <p>9 All staff can continue to attend school in local restriction tiers 1, 2 and 3.</p> <p>10 Under local restriction tier 3, staff and employers may wish to discuss flexibilities that support clinically extremely vulnerable staff, such as staggered start times to reduce travel during rush hour.</p> <p>Further guidance to the clinically extremely vulnerable is available.</p> <p>11 Staff who are clinically vulnerable</p> <p>Clinically vulnerable staff can continue to attend school. While in school they should follow the sector-specific measures in this document to minimise the risks of transmission.</p> <p>This includes taking particular care to observe good hand and respiratory hygiene, minimising contact and maintaining social distancing in line with the provisions set out in section 6 of the 'prevention' section of this guidance. This provides that ideally, adults should maintain 2 metre distance from others, and where this is not possible avoid close face to face contact and minimise time spent within 1 metre of others. While the risk of transmission between young children and adults is likely to be low, adults should continue to take care to socially distance from other adults including older children and adolescents.</p> <p>12 People who live with those who are clinically extremely vulnerable or clinically vulnerable can attend the workplace unless advised otherwise by an individual</p>				
--	--	--	--	--	--	--

		<p>letter from the NHS or a specialist doctor.</p> <p>13 Staff who are pregnant</p> <p>Pregnant women are in the 'clinically vulnerable' category and are generally advised to follow the above advice, which applies to all staff in schools. More guidance and advice on coronavirus (COVID-19) and pregnancy is available from the Royal College of Gynaecologists. All pregnant women should take particular care to practise frequent, thorough hand washing, and cleaning of frequently touched areas in their home or workspace.</p> <p>An employer's workplace risk assessment should already consider any risks to female employees of childbearing age and, in particular, risks to new and expectant mothers (for example, from working conditions, or the use of physical, chemical or biological agents). Any risks identified must be included and managed as part of the general workplace risk assessment.</p> <p>If a school is notified that an employee is pregnant, breastfeeding or has given birth within the last 6 months, the employer should check the workplace risk assessment to see if any new risks have arisen. If risks are identified during the pregnancy, in the first 6 months after birth or while the employee is still breastfeeding, the employer must take appropriate, sensible action to reduce, remove or control them.</p> <p>While it is a legal obligation for employers to regularly review general workplace risks, there is not necessarily a requirement to conduct a specific, separate risk</p>				
--	--	--	--	--	--	--

		<p>assessment for new and expectant mothers. However, an assessment may help identify any additional action that needs to be taken to mitigate risks.</p> <p>We recommend that schools follow the same principles for pregnant pupils, in line with their wider health and safety obligations.</p> <p>14 Staff who may otherwise be at increased risk from coronavirus (COVID-19)</p> <p>Some people with particular characteristics may be at comparatively increased risk from coronavirus (COVID-19), as set out in the COVID-19: review of disparities in risks and outcomes report, which looked at different factors including age and sex, where people live, deprivation, ethnicity, people’s occupation and care home residence. These staff can attend school as long as the system of controls set out in this guidance are in place. The reasons for the disparities are complex and there is ongoing research to understand and translate these findings for individuals in the future.</p> <p>People who live with those who may have comparatively increased risk from coronavirus (COVID-19) can attend the workplace. An individual risk assessment should be completed and monitored upon any significant changes</p> <p>15 Employer health and safety and equalities duties</p> <p>Schools have a legal obligation to protect their employees, and others, including children, from harm and should continue to assess health and safety risks in the usual way. Following the steps in this guidance will mitigate the risks of coronavirus (COVID-19) to children</p>				
--	--	--	--	--	--	--

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

		<p>and staff and help schools to meet their legal duties to protect employees and others from harm.</p> <p>16 The Health and Safety Executive published guidance on first aid during coronavirus (COVID-19) which will support local risk assessments and provides guidance for first aiders. It is clear that treating any casualty properly should be the first concern. Where it is necessary for first aid provision to be administered in close proximity, those administering it should pay particular attention to sanitation measures immediately afterwards including washing hands.</p> <p>Schools should continue to meet their equalities duties. Guidance is available in Equality act 2010 advice for schools.</p> <p>17 Supporting staff</p> <p>Governing boards and school leaders should have regard to staff (including the headteacher) work-life balance and wellbeing. Schools should ensure they have explained to all staff the measures they are proposing putting in place and involve all staff in that process.</p> <p>18 All employers have a duty of care to their employees, and this extends to their mental health. Schools already have mechanisms to support staff wellbeing and these will be particularly important, as some staff may be particularly anxious about attending school. DfE is providing additional support for both pupil and staff wellbeing in the current situation. Information about the extra mental health support for pupils and teachers and Wellbeing for Education return</p>				
--	--	---	--	--	--	--

		<p>programme is available.</p> <p>19 The Education Support Partnership provides a free helpline for school staff and targeted support for mental health and wellbeing.</p> <p>20 Staff deployment</p> <p>Schools may need to alter the way in which they deploy their staff, and use existing staff more flexibly. Managers should discuss and agree any changes to staff roles with individuals.</p> <p>It is important that planning builds in the need to avoid increases in unnecessary and unmanageable workload burdens. This could include a review of existing practices in this respect and schools may wish to draw on DfE’s workload reduction toolkit.</p> <p>21 DfE has also published a range of resources, including case studies to support remote education and help address staff workload, this includes case studies on managing wellbeing.</p> <p>Deploying support staff and accommodating visiting specialists</p> <p>22 Schools should ensure that appropriate support is made available for pupils with SEND, for example by deploying teaching assistants and enabling specialist staff from both within and outside the school to work with pupils in different classes or year groups.</p> <p>23 Recruitment</p> <p>Recruitment should continue as usual. The government’s Teaching Vacancies service can help schools to list vacancies for both permanent and fixed-</p>				
--	--	---	--	--	--	--

		<p>term teaching staff quickly. The free national service for searching and listing teaching roles will be directing newly qualified teachers (NQTs) and job seeking teachers to this service.</p> <p>As DfE guidance advises limiting the number of visitors, it may be appropriate for schools to consider a flexible approach to interviews, with alternative options to face-to-face interviews offered where possible. Interviewing remotely may be a new experience for many schools. The DfE teaching blog provides some information on the experience of implementing interviews remotely. There is also advice that can be sent to candidates on how to prepare for remote interviews.</p> <p>Where face-to-face meetings are arranged, schools should make clear to candidates that they must adhere to the system of controls that schools have in place. Schools will also have the discretion to require face coverings for visitors where social distancing cannot be managed safely.</p> <p>24 Supply teachers and other temporary or peripatetic teachers</p> <p>Schools can continue to engage supply teachers and other supply staff during this period. We recommend that schools consider using DfE's and Crown Commercial Service's agency supply deal when hiring agency workers, as this offers a list of preferred suppliers that must be transparent about the rates they charge.</p> <p>Supply staff and other temporary workers can move between schools, but school leaders will want to</p>				
--	--	---	--	--	--	--

		<p>consider how to minimise the number of visitors to the school where possible. Where it is necessary to use supply staff and to welcome visitors to the school such as peripatetic teachers, those individuals will be expected to comply with the school's arrangements for managing and minimising risk, including taking particular care to maintain distance from other staff and pupils. To minimise the numbers of temporary staff entering the school premises, and secure best value, schools may wish to use longer assignments with supply teachers and agree a minimum number of hours across the academic year. This advice for supply teachers also applies to other temporary staff working in schools such as support staff working on a supply basis, peripatetic teachers such as sports coaches, and those engaged to deliver before and after school clubs.</p> <p>25 Vulnerable children</p> <p>Where individuals who are self-isolating are within our definition of vulnerable, it is important that schools put systems in place to keep in contact with them.</p> <p>When a vulnerable child is asked to self-isolate, schools should notify their social worker (if they have one). School leaders should then agree with the social worker the best way to maintain contact and offer support to the vulnerable child or young person.</p> <p>Schools should also have in place procedures to check if a vulnerable child is able to access remote education support, to support them to access it (as far as possible) and to regularly check if they are doing so.</p>

<p>(17. Educational Visits)</p> <p>Coronavirus (COVID-19) (CV19) with CV19</p>	<p>Employees, agency, Pupils, visitors</p> <p>Causing severe infection/disease</p>	<p>1 Overseas educational visits are currently not permitted</p> <p>2 This advice remains under review</p> <p>3 Review the Evolve front pages for specific outdoor education CV19 guidance review.</p> <p>4 Domestic (UK) overnight educational visits</p> <p>Prohibited at present, with a review in February 2021</p> <p>This advice will therefore be reviewed and updated again in February 2021.</p> <p>Non-overnight domestic educational visits</p> <p>During the autumn term schools have been able to take pupils on non-overnight domestic educational visits. This should include visits for pupils with SEND connected with their preparation for adulthood (for example, workplace visits or travel training). Schools should also make use of outdoor spaces in the local area to support the delivery of the curriculum.</p>		<p>No educational visits taking place currently until further notice.</p>		

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

		<p>As normal, schools should undertake full and thorough risk assessments in relation to all educational visits to ensure they are planned and carried out safely and in line with relevant local restriction tier guidance, such as keeping children within their consistent group and any coronavirus (COVID-19) secure measures on transport and at the destination.</p> <p>Schools should consult the health and safety guidance on educational visits when considering visits and make sure that the appropriate insurance arrangements are in place.</p> <p>The Association of British Insurers (ABI) has produced information on travel insurance implications following the coronavirus (COVID-19) outbreak. If schools have any further questions about their cover or would like further reassurance, they should contact their travel insurance provider.</p> <p>Follow the school educational visits policy and procedures.</p>				
<p>(18. School Uniform/Winter months) Coronavirus (COVID-19) (CV19) with CV19</p>	<p>Employees, agency, Pupils, visitors</p> <p>Causing severe infection/disease</p>	<p>1 Uniforms do not need to be cleaned any more often than usual, nor do they need to be cleaned using methods which are different from normal.</p> <p>2 Schools should consider how pupil non-compliance is managed, taking a mindful and considerate approach in relation to parents who may be experiencing financial pressures.</p> <p>3 Increased ventilation may make school buildings cooler than usual over the winter months. While schools will want to maintain the benefits of their uniform, they</p>		<p>Support given to families who may need it with regards to shopping, homewares and detergent.</p>		

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

		may wish to consider allowing additional, suitable indoor items of clothing to be worn during the winter period in addition to the school's current uniform. Where this occurs, schools should ensure that no extra financial pressure is placed on parents.				
<p>(19. Wraparound provision and extra-curricular activity)</p> <p>Coronavirus (COVID-19) (CV19) with CV19</p>	<p>Employees, agency, Pupils, visitors</p> <p>Causing severe infection/disease</p>	<p>1 Schools should be working to resume all their breakfast and after-school provision in all local restriction tiers. Schools should also work closely with any external wraparound providers which their pupils may use, to ensure as far as possible, children can be kept in a group with other children from the same bubble they are in during the school day.</p> <p>2 Where it is not possible, or it is impractical to group children in the same bubbles as they are in during the school day - for example, if only one or two children are attending wraparound provision from the same school day bubble - schools and external providers may need to group children with others from outside their school day bubble or from a different school, where children from multiple schools are attending provision. If schools or external providers need to do this, they should seek to keep children in small, consistent groups with the same children each time, as far as this is possible.</p> <p>3 Being flexibly and building wraparound provision up over time. Such provision will however help ensure pupils have opportunities to re-engage with their peers and with the school, ensure vulnerable children have a healthy breakfast and are ready to focus on their lessons, provide enrichment activities, and also support working parents.</p>		No uptake for breakfast club so far this term but will communicate to families our offer.		

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

		<p>Schools can consult the guidance produced for providers who run community activities, holiday clubs, after-school clubs, tuition and other out-of-school provision for children, as much of this will be useful in planning extra-curricular provision. This includes schools advising parents to limit the number of different out-of-school settings providers they access, as far as possible. Where parents use childcare providers or out of school extra-curricular activities for their children, schools should encourage parents and carers to seek assurance that the providers are carefully considering their own protective measures, and children should only attend settings that can demonstrate this. DfE has also issued guidance for parents and carers, which schools may want to circulate.</p> <p>Schools may also choose to open up or hire out their premises for use by external bodies or organisations, such as external coaches or after-school or holiday clubs or activities. In doing so, schools should ensure they work with providers to consider how they can operate within their wider protective measures and should also have regard to any other relevant government guidance. For example, where opening up school leisure facilities for external use, ensuring they do so in line with government guidance on working safely during coronavirus (COVID-19) for providers of grassroots sport and gym or leisure facilities.</p> <p>Schools should also read the local restriction tiers guidance to find out what tier their area is in and the additional restrictions that apply. Currently, schools can</p>				
--	--	--	--	--	--	--

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

		continue to offer all before and after-school educational activities and wraparound childcare in all local restriction tiers.				
<p>(20. Music and dance)</p> <p>Coronavirus (COVID-19) (CV19)</p>	<p>Employees, agency, Pupils, visitors</p> <p>Causing severe infection/disease</p>	<p>1 Additional mitigations, such as extended social distancing, were previously required for singing, and playing of wind and brass instruments given concerns that these were potentially higher risk activities. Department for Culture, Media and Sport (DCMS) has commissioned further scientific studies to be carried out to develop the scientific evidence on these activities, which has allowed the government to reconsider appropriate mitigations and further research is continuing.</p> <p>2 Singing, wind and brass instrument playing can be undertaken in line with this and other guidance, including guidance provided by the DCMS for professionals and non-professionals, available at working safely during coronavirus (COVID-19): performing arts. However, these studies have also indicated that it is the cumulative aerosol transmission from both those performing in, and attending, events which is likely to create risk. DCMS is continuing to develop a more detailed understanding of how to mitigate this potential aggregate risk, but in that context, organisations should follow the guidance set out below.</p> <p>3 Schools that offer specialist, elite provision in music, dance and drama should also consider this guidance alongside the DCMS guidance on the performing arts. Specialist provision delivered by further education (FE) providers or higher education (HE) providers should</p>	M	<p>No whole school singing indoors. All wind instruments temporarily removed. Singing in small groups. Rooms well ventilated. Music that may be used in spaces is not so loud to require people to raise their voices to communicate. Stringent cleaning and handwashing routines in place. Staff and adults observing strict social distancing measures.</p>	All staff	In place, ongoing and evaluated regularly.

		<p>consider the respective Department for Education guidance for these sectors.</p> <p>Minimising contact between individuals</p> <p>4 Schools must do everything possible to minimise contacts and mixing. The overarching objective should be to reduce the number of contacts between pupils and students, and staff, including for rehearsal and performance. As set out in the system of controls: protective measures section, this can be achieved through keeping groups separate (in bubbles) and through maintaining the social distance between individuals. These are not alternative options. Both measures will help, but the balance between them will change depending on the age of pupils, the layout of the building, and the feasibility of keeping groups separate from each other while offering a broad curriculum. If staff need to move between classes and year groups, they should try and keep their distance from pupils and other staff as much as they can, ideally 2 metres from other adults.</p> <p>5 Schools should take particular care in music, dance and drama lessons to observe social distancing where possible. This may limit group activity in these subjects in terms of numbers in each group. It will also prevent physical correction by teachers and contact between pupils in dance and drama.</p> <p>6 Additionally, schools should keep any background or accompanying music to levels which do not encourage teachers or other performers to raise their voices unduly. If possible, use microphones to reduce the need</p>				
--	--	--	--	--	--	--

		<p>for shouting or prolonged periods of loud speaking or singing. If possible, do not share microphones. If they are shared, follow the guidance on handling equipment.</p> <p>Performances</p> <p>7 Schools in local restriction tier 3 and 4 areas should not host performances with an audience. Where schools are unable to put on live performances to parents, they may wish to consider alternatives such as live streaming and recording performances, subject to the usual safeguarding considerations and parental permission.</p> <p>8 Schools in other local restriction tier areas planning an indoor or outdoor performance in front of an audience should follow the latest advice in the DCMS performing arts guidance, implementing events in the lowest risk order as described. If planning an outdoor performance they should also give particular consideration to the guidance on delivering outdoor events.</p> <p>Peripatetic teachers</p> <p>9 Schools can continue to engage peripatetic teachers during this period, including staff from music education hubs.</p> <p>Peripatetic teachers can move between schools, for instance, but schools should consider how to minimise the number of visitors where possible. They will be expected to comply with arrangements for managing and minimising risk, including taking particular care to maintain distance from other staff and pupils. To minimise the numbers of temporary staff entering the premises, and secure best value, schools could</p>				
--	--	--	--	--	--	--

		<p>consider using longer assignments with peripatetic teachers and agree a minimum number of hours across the academic year.</p> <p>If a teacher is operating on a peripatetic basis, and operating across multiple groups or individuals, it is important that they do not attend a lesson if they are unwell or are having any symptoms associated with coronavirus (COVID-19) such as fever, a new and sustained cough, loss of sense of taste or smell. In addition, they should:</p> <ol style="list-style-type: none"> 1. Maintain distancing requirements with each group they teach, where appropriate. 2. Avoid situations where distancing requirements are broken; for an example demonstrating partnering work in dancing. 3. Make efforts to reduce the number of groups taught and locations worked in, to reduce the number of contacts made. <p>Further information on the music education hubs, including contact details for local hubs, can be found at music education hub, published by the Arts Council England.</p> <p>Music teaching in schools and colleges, including singing, and playing wind and brass instruments in groups</p> <p>10 When planning music provision, schools should consider additional specific safety measures. Although singing and playing wind and brass instruments do not currently appear to represent a significantly higher risk</p>				
--	--	--	--	--	--	--

		<p>than routine speaking and breathing at the same volume, there is now some evidence that additional risk can build from aerosol transmission with volume and with the combined numbers of individuals within a confined space. This is particularly evident for singing and shouting, but with appropriate safety mitigation and consideration, singing, wind and brass teaching can still take place. Measures to take follow in the next sections.</p> <p>11 Playing outdoors</p> <p>Playing instruments and singing in groups should take place outdoors wherever possible. If indoors, consider limiting the numbers in relation to the space.</p> <p>12 Playing indoors</p> <p>If indoors, use a room with as much space as possible, for example, larger rooms; rooms with high ceilings are expected to enable dilution of aerosol transmission. If playing indoors, limiting the numbers to account for ventilation of the space and the ability to social distance. It is important to ensure good ventilation. Advice on this can be found in Health and Safety Executive guidance on air conditioning and ventilation during the coronavirus outbreak.</p> <p>13 Singing, wind and brass playing</p> <p>Singing, wind and brass playing should not take place in larger groups such as choirs and ensembles, or assemblies unless significant space, natural airflow (at least 10l/s/person for all present, including audiences) and strict social distancing and mitigation as described below can be maintained.</p>				
--	--	---	--	--	--	--

		<p>14 Social distancing</p> <p>In the smaller groups where these activities can take place, schools should observe strict social distancing between each singer and player, and between singers and players, and any other people such as conductors, other musicians, or accompanists. Current guidance is that if the activity is face-to-face and without mitigating actions, 2 metres is appropriate. Pupils should use seating where practical to help maintain social distancing.</p> <p>15 Seating positions</p> <p>Pupils should be positioned back-to-back or side-to-side when playing or singing (rather than face-to-face) whenever possible. Position wind and brass players so that the air from their instrument does not blow into another player.</p> <p>16 Microphones</p> <p>Use microphones where possible or encourage singing quietly.</p> <p>By considering and adopting these cumulative risk mitigation measures, the overall risk will be reduced.</p> <p>17 Handling equipment and instruments</p> <p>Measures to take when handling equipment, including instruments, include the following.</p> <p>18 Handwashing</p> <p>Requiring increased handwashing before and after handling equipment, especially if being used by more than one person.</p>				
--	--	---	--	--	--	--

		<p>19 Avoiding sharing instruments</p> <p>Avoid and equipment wherever possible. Place name labels on equipment to help identify the designated user, for example, percussionists' own sticks and mallets.</p> <p>If instruments and equipment have to be shared, disinfect regularly (including any packing cases, handles, props, chairs, microphones and music stands) and always between users, following government guidance on cleaning and handling equipment available at hygiene: handwashing, sanitation facilities and toilets.</p> <p>Instruments should be cleaned by the pupils playing them, where possible.</p> <p>20 Handling scores, parts and scripts</p> <p>Limit handling of music scores, parts and scripts to the individual using them.</p> <p>21 Suppliers</p> <p>Consider limiting the number of suppliers when hiring instruments and equipment. Schools should agree whose responsibility cleaning hired instruments is with the suppliers. Clean hire equipment, tools or other equipment on arrival and before first use. Equipment and instruments should be stored in a clean location if schools take delivery of them before they are needed, and they should be cleaned before first use and before returning the instrument.</p> <p>22 Pick-up and drop off points</p> <p>Pick up and drop off collection points should be created where possible, rather than passing equipment such as</p>				
--	--	--	--	--	--	--

	<p>props, scripts, scores and microphones hand-to-hand.</p> <p>23 Individual lessons and performance in groups</p> <p>Individual lessons in music, dance and drama can resume in schools, FE colleges and organisations providing out of school childcare. This may mean teachers interacting with pupils from multiple groups, so schools will need to take particular care, in line with the measures set out above on peripatetic teachers.</p> <p>If there is no viable alternative, music lessons in private homes can resume, following the same guidelines, and additionally following the government guidance for working in homes, and the guidance for out-of-school provision.</p> <p>In individual lessons for music, dance and drama, social distancing should be maintained wherever possible, meaning teachers should not provide physical correction.</p> <p>Specific safety measures for individual music lessons are set out in the following sections.</p> <p>24 Social distancing</p> <p>Measures should include specific social distancing between pupil and teacher (current guidance is that if the activity is face-to-face and without mitigations, 2 metres is appropriate), accounting for ventilation of the space being used. Pupil and teacher should be positioned side by side if possible.</p> <p>25 Avoid sharing instruments</p> <p>Avoid sharing instruments and equipment wherever possible and place name labels on equipment to help</p>				
--	--	--	--	--	--

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

		<p>are at home as a result of coronavirus (COVID-19) should have access to remote education by the next school day.</p> <p>Special educational needs</p> <p>Where a pupil has provision specified within their EHC plan, it remains the duty of the local authority and any health bodies to secure or arrange the delivery of this in the setting that the plan names.</p>				
<p>(28. Science)</p> <p>Coronavirus (COVID-19) (CV19)</p> <p>Someone entering the school/workplace/offices with CV19</p>	<p>Employees, agency, Pupils, visitors</p> <p>Causing severe infection/disease</p>	<p>1 Science lessons and heads/leads should follow the specific COVID-science related CLEAPSS guidance and have detailed within this section or specific risk assessment</p> <p>http://science.cleapss.org.uk/Resource/GL343-Guide-to-doing-practical-work-during-the-COVID-19-Pandemic-Science.pdf</p>	L	<p>All staff embracing the catch it, bin it, kill it, approach alongside regular handwashing and promotion of positive behaviours through daily modelling, story sessions, Persona Doll and interactions daily.</p>	All staff	<p>In place, ongoing and evaluated regularly.</p>
<p>(29. Behaviour change / support / expectations)</p> <p>Coronavirus (COVID-19) (CV19)</p> <p>Someone entering the school/workplace/offices with CV19</p>	<p>Employees, agency, Pupils, visitors</p> <p>Causing severe infection/disease</p>	<p>1 Assessment and implementation of ‘change management’ for behaviour, recognising that the school’s control measures for the virus is actually all based on human behaviour to manage, i.e. washing hands, respiratory health, cleaning, staying at home when have symptoms, staying at a distance, all of which requires training, support, guidance, correction, monitoring</p> <p>2 Staff need to make themselves be accountable for their own actions for hand and respiratory hygiene measures and actions, and social distancing control measures, this should be a focus and support set up,</p>		<p>Staff have been made aware of accountability for own action. Reminders, briefings and communications to review, remind and support this, ensuring it is enforced, regularly are in place. All staff responsible for and aware of ventilation, handwashing regularly, enhanced cleaning regime, social distancing and hold each other to account. Pandemic Protocol Policy is being drawn up which will capture these behaviours.</p>		

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

		<p>where if you notice staff and or visitors/pupils not being COVID secure, you are able to 'remind' 'advise' 'correct' to ensure the vital control measures are being completed</p> <p>3 A review of the school's behaviour policy around the COVID-secure and risk management required, including what is expected and the consequences for poor unsafe behaviour</p>				
<p>(30. Contractor / visitor) Contractors/Visitors/ Parents Coronavirus (COVID-19) (CV19) Someone entering the school/workplace/offices with CV19</p>	<p>Employees, agency, Pupils, visitors</p> <p>Causing severe infection/disease</p>	<p>1 Only necessary contractors to be allowed on site, and approved/authorised by managers, COVID-19 risk assessments must be sent by contractors and reviewed, and works/visits agreed/authorised before the works/visits commence</p> <p>2 Agency staff and contractors to be inducted to the normal health and safety induction processes, including the current COVID-19 risk assessments and social distancing requirement, and promotion of hand cleaning and hygiene</p> <p>3 Pre-communicated to ensure a health check question-set is asked regarding any symptoms of COVID-19, and information given to them before they get to site on the social distancing and COVID-19 management standards in place</p> <p>4 Normal risk assessment, method statements review, considering your own COVID-19 risk assessment to review if the works will compromise social distancing for others, such as increasing of numbers of people by contractors working in staff areas breaking the social distancing requirements</p>	M	<p>No contractors during school hours (unless emergency). When on site contractors must wear face coverings. Clear communication and induction. One parent may enter school per child to drop off and pick up. One way system in place. Masks must be worn when indoors. During times of restrictions - children dropped off at the front and collected there. No parents onsite.</p>	All staff aware and to uphold and challenge.	In place, ongoing and evaluated regularly.

LBTH Schools – School SLA Health and Safety - COVID-19 SCHOOL RISK ASSESSMENT return in January 2021

		<p>5 Normal management and monitoring of contractor works, wellbeing on site</p> <p>6 School to assess to keep the parents off site and reduce the concerns of gatherings, this is a school-based review/plan, supported by regular communication, assessing what gates and entrance points can be increased or used, using signage to remind parents of social distancing requirements and not to wait around together, school staff to ensure personal safety is assessed before going and directing parents to socially distance</p> <p>7 Contractors to follow the COVID-face covering management of the school, either implement that all visitor/contractors to wear face coverings, or in defined areas</p>

Overall Residual Risk for Activity (L / M / H):

Level of Risk	Suggested Action
LOW	Control measures are adequate but continue to monitor and review; ensure that they remain satisfactory and appropriate
MEDIUM	Control measures need to be introduced within a specified time period; continue to monitor and review
HIGH	Unless control measures can be immediately introduced to reduce the risk so far as is reasonably practicable, the task or activity should be suspended

How COVID is transmitted
